Here is the Catalog that we promised!

Over 30 years ago my wife Debbie asked me to make her a wooden spoon that wouldn't break, today our skilled craftsmen are producing nearly 100 woodenware products that are beautiful and useful as they are strong, here in *Silver Lake, Indiana*.

Hard Maple is the chosen wood to make our Whetstone Woodenware, for hundreds of years it has been the wood of choice in North America for making rolling pins, cutting boards and yes wooden spoons. Hard Maple is a domestically grown closed grain hardwood from which Maple Syrup is harvested annually, the perfect wood for making Whetstone Woodenware.

I look forward to providing you with the Best in Genuine Whetstone Woodenware and success in your future woodenware sale.

John B. Whetstone
President
